**Remarks/Arguments**

Applicant would like to thank the examiner for the thorough review of the present application. Replacement FIGS. 3 and 4 are attached and now correctly label the apertures 21 and more correctly identify the seat-mounting member 20. The specification and the claims have been amended to correct the informalities helpfully cited by the examiner. The examiner has allowed claims 6-12. Claim 2 has been canceled and rewritten in independent form and claims 3-5 now depend upon amended claim 1 and thus, are now also in condition for allowance.

In view of these considerations, it is respectfully submitted that the rejection of the original claims should be considered as no longer tenable with respect to the currently amended independent claim 1. All pending dependent claims necessarily include the recitations of their independent claims and therefore are also in condition for allowance.

Should the examiner consider necessary or desirable to make formal changes anywhere in the specification, claims and/or drawings, then it is respectfully asked that such changes be made by examiner's Amendment, if the examiner feels this would facilitate passage of the case to issuance. Alternatively, should the examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned attorney.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.
